Sub:- Estimate for Rs. 412/- for closing the ends of the 9" pipe drain and 6" pipe drain for diverting these waters into the existing main sewer

---

I have the honour to state that from the connected papers on the subject, it is seen that the Assistant Engineer Officer who is the Special Officer for the City Drainage Division before the Trust Board was formed with a view to relieve the nuisance caused to the residents of the locality by water in the sewer of the above drains to the existing sewer

2. There is a note dated 10-1-47 of the estimate of the Engineer Officer to the effect that the work was done under instructions from the Law Secretary

in March 1945 and that the amount had to be paid after obtaining sanction to the estimate. As the work has anyhow been carried out by the previous Engineer Officer in the year 1945 before the Trust Board was informed and the Contractor is pressing for payment, I request that sanction of Government may kindly be obtained to the estimate which has been passed by the Board at its meeting held on 7-5-47 when the following resolution was passed

"That the estimate be passed and sent to Government for sanction with the observation that the Engineer Officer should have obtained necessary previous sanction after obtaining the approval of the Board earlier.
